## Presence and Focus

Excellent	Good	Okay	Needs Improvement
I was focused on the assignments for the entire class period. If I finished my work early, I looked for ways to extend my learning and ways to help others.	I spent most of the class focused on the work and assignments with less than 5 mins unfocused	I spent 15 mins or less of class unfocused (on videos, games, my phone, socializing etc.) or out of the room	I missed a lot of class time by being outside of the classroom or I spent more than 15 mins of class time distracted (on videos, games, my phone, socializing etc.)

## Taking Risks and Doing my Best

Excellent	Good	Okay	Needs Improvement
I am doing my best work in the class. I am taking risks with assignments, and trying things that I think will be difficult for me.	I feel that I am doing my best work in this class.	I am working and completing the assignments, but I know that I can do better.	I am not trying to complete the assignments on my own.

Choose

## Respect

Excellent	Good	Okay	Needs Improvement
I not only was respectful to Ms. DiFede, my classmates and equipment, but I futhered the respect and made the classroom better by: cleaning up things that weren't mine, going out of my way to help a classmate or Ms. DiFede, stood up for someone or reached out when needed.	I am being respectful to Ms. DiFede, respectful to my classmates, and respectful to the classroom/equipment	I was mostly respectful, but I may have had 1 or 2 lapses in judgement today.	I was disrespectful. Examples include: not listening to Difede, making inappropriate comments to classmates, damaging equipment, leaving a mess, being disruptive.

Choose

## Facing Difficulties

Excellent	Good	Okay	Needs Improvement
When faced with difficulties, I did all of the things listed in Good. After I was able to solve my problem, I helped others or created resources for the class to help out others who might face similar issues.	When faced with difficulties, I searched the internet and asked my classmates first - trying to find the answer. If I couldn't find the answer, I asked Ms. DiFede, but continued searching if she was helping someone else.	When faced with difficulties, I asked Ms. D for help and waited for her to respond. OR I faced no difficulties because I didn't seek any challenges.	When faced with difficulties - I gave up.
